This Plan

This Training plan is designed to get you to the start line of a 5km feeling prepared and confident that you can achieve your goal

Is this everything i need to know?

No - this plan is supported by our Running Guide, which gives more detail on the structure of the running sessions and top tips on nutrition and recovery to leave you fitter, stronger and more energised as you progress through your training journey

Why train this way?

If you keep doing the same things over and over again you can't expect different results. This plan is designed to add variety, structure and progression to your training. It will challenge you across a range of different heart rate zones and gradually build up your ability to run at your desired goal race pace
