

St John Ambulance Sussex Patient transport service – a caring service.

The service we provide

- *Transfer to and from hospitals, clinics and care homes*
- *Outpatient visits*
- *Collection of patients arriving by sea, rail or air*
- *Capability to accommodate bedridden patients or those with limited mobility*

Where we can go

- We can provide local and long distance transport
- We can accommodate one-way, wait and return or regular scheduled trips

How do we get there?

- Utilisation of modern, state-of-the-art navigation systems ensuring patients reach their destination in the shortest possible time

Our staff

- Highly trained in ambulance aid, care, medical gases, patient handling and, of course, first aid
- Regularly assessed to meet St John Ambulance national standards
- Friendly, sensitive to patient needs and experienced in emergency and routine situations
- Easily identified by the familiar logo

Ambulances and equipment

- A clearly identified, modern, purpose-built fleet
- Fully equipped to care for a range of dependency levels
- All vehicles have automated external defibrillators, medical gases and are compliant with current protocols

Why choose St John Ambulance Sussex?

- *Excellent reputation*
- *Quality brand*
- *A valued and cost-effective service*
- *Flexible to meet your transport needs*
- *Experienced and trusted*
